OF INTEREST TO MAINE HOUSE-
WIVES.

Some Timely Suggestions as to the
Preparation of Summer Beverages,
Good Things for Sandwiches and
Other Recipes of Value.

In preparing summer beverages, one important secret is the preparation of the foundation syrup, as this gives the richness found in Southern compounds often lacking in our home brews. Usually the syrup is formed simply by boiling together sugar and water in proportion of a pint of water for every pound of sugar, but occasionally ginger root or saffron bark or a bit of mint or wintergreen is steeped in the syrup and strained out, after the flavor is extracted, to leave a clear syrup. Whether it is boiled plain or with the flavoring elements, the sugar and water are placed in a saucepan and allowed to simmer gently until the sugar is dissolved, and then boiled without stirring until the syrup will spin a delicate thread. When wanted for immediate use the fruits and flavors are added at once while the syrup is still hot, after the roots or herbs used for additional flavor have been strained out. When prepared in great quantity for mixing later with various juices and fruits for a variety of drinks, the syrup is bottled while hot and kept constantly on hand for the quick preparation of refreshing compounds.

Stick cinnamon, whole cloves and various other spices, that may be steeped in the boiling syrup to give a variety of flavoring, are used for many of the clear drinks. For fruit drinks—those in which a little grated coconut, shredded pineapple and thin slices of orange or grapefruit appear—the spice and root and bark flavors should not be included. There is a possibility of getting too much of a good thing even in the rich bleedings. Fruit syrups also form the rich ingredient that holds the secret of many bottles of refreshments.

The pineapple is finely shredded with a fork into a bowl after the rind and the eyes have been removed. After a big pineapple has been shredded the juice collected in the bowl will be sufficient to flavor a good quantity of the honey and the pineapple beverage. If more is desired the shredded pulp may be squeezed lightly in a cheesecloth bag. The juice is mixed with nearly its quantity of honey and the juice of one lemon to each half-pint of the compound is added. The mixture is thoroughly shaken or mixed in the bowl with an eggbeater until the honey and juice are well blended. When ready for serving this thick rich syrup is mixed with a little cold water without sugar, for the honey makes its sufficiently sweet.

The pineapple pulp, from which the juice has been partly extracted, is then added gently in a little sugar and water syrup with the grated rind of the pineapple and four or five whole cloves. The syrup forms the foundation for a rich pineapple punch. Add to the clear syrup a fresh pineapple cut into tiny cubes or very thin shavings, a thick sliced orange and a few chopped candied cherries.

Ten, coffee and chocolate punches are also great favorites. For any of these beverages make a sugar-and-water syrup of two pounds of granulated sugar and a quart of water. When it has boiled gently until ready to spin a thin thread when dropped from the spoon, add a pint of strong freshly made coffee or tea, or half a cupful of rich melted chocolate, according to the sort of punch desired. For any of the three varieties lemon juice will be required for flavoring, and the additional fruit flavors may be added as desired, the preference being very thin slices of oranges and pineapple and bananas, or crushed peaches or cherries and berries according to the season. Just before being served the thick, richly flavored punch may be reduced with carbonated water, or simply with ice-cold water.

Pineapple shrub, served with beaten whites of eggs or whipped cream, is a favorite beverage which may be duplicated by currant or grape shrub. After shredding the pineapple or picking all stems from currants or grapes, heat the fruit with a little water until the juice runs freely. Then squeeze the fruit through a thin cheesecloth bag, and to each full quart of the liquid allow one pound of sugar, and simmer fruit juice and sugar together until the sugar is dissolved. When the mixture is cold, allow one egg and the juice of one lemon for each quart of syrup. Beat the whites of the eggs to a stiff froth and after filling the glasses with the shrub add a little finely crushed ice and tablespoonful of plain white of egg or whipped cream, or a meringue made by beating a little powdered sugar into the eggs. Serve with soda straws.

For ginger frappe extract the rich flavoring of ginger root by boiling the crushed root in the usual sugar-and-water syrup, instead of using the bottled ginger ale. When richly flavored with the ginger root the hot syrup is strained and allowed to cool. Then the juice of three lemons and two oranges is added to each quart of the heavy ginger syrup, and when ready to serve, nearly half a glassful of finely crushed ice may be allowed to each glass of the frappe.

To a cup of cold water add a cupful of sugar and half a pound of chopped ginger; boil the mixture for fifteen minutes. To this add half a cupful each of orange, cherry and lemon juice. Cool and strain the mixture. This is best if made the night before it is to be used, and hung in the well—not in a tin pail—so that it will become cold. When it is ready to be served dilute it by adding at least a quart of fresh cold water. More water may be added if desired.

SOME SANDWICH SUGGESTIONS.

Three Spanish peppers, two hard-boiled eggs, one cream cheese, one tablespoonful of chopped onion, red pepper and salt. Dressing: One tablespoonful sugar, one egg, one tablespoonful of butter, two tablespoonfuls vinegar, half a cupful of cream, one tablespoonful of flour. Chop the Spanish peppers, eggs, cheese, onion, salt and pepper, and when the dressing is cool mix all together. Spread between thin slices of buttered bread and serve. As a change from the plain ham sandwich, add a chopped sweet pepper and a small bottle of pickles to a can of deviled ham.

To one can of deviled ham, add some chopped preserved cherries and a little of the juice; then come finely chopped walnuts and a little olive oil or melted butter to make the filling spread easily. Another kind of sandwich which is an delightful as it is unusual is made by mixing grape jam and cream cheese together, and spreading the mixture on thin crackers.

Run some cherries and pineapple through the meat grinder. Mix with this a salad dressing and a few chopped nuts. Spread on the bread and then put two slices together.

Spread thin slices of bread with peanut butter mixed with very little milk and between two pieces lay slices of large olives or fresh lettuce leaves.

A combination of cream cheese with finely chopped walnuts or other nut meats, mixed into a paste, makes a delicious filling for sandwiches. The bread may be cut into any shape desired; while a dainty touch can be given to each sandwich by placing on it a small dab of cream cheese and half a walnut meat.

Mix two cream cheeses with melted butter to make a paste. Add one small bottle of stuffed olives chopped fine, one hard-boiled egg chopped fine, a little salt, cayenne pepper and grated onion to season lightly. Spread between thin slices of bread.

Melt brown butter and spread with cream cheese, then with a little cream.

With white or Graham bread one let two slices with a layer of chopped walnuts, crushed with sugar, or with thin slices of ham laid over it. The two slices of thin bread and butter and spread them with tomato pulp, prepared with a little melted pepper, and a little salt. Then spread with a layer of cream cheese, and a layer of ham, and a layer of tomato pulp. Spread with a layer of cream cheese, and a layer of ham, and a layer of tomato pulp. Spread with a layer of cream cheese, and a layer of ham, and a layer of tomato pulp.

They "score" big with College Men!

During the college term—in vacation time—on and off the field—college men everywhere agree that

CIGARETTES are the mildest, purest and most enjoyable form of smoking

Mrs. Joseph Bartlett and son, Horace Bartlett, of Hartford, spent the Fourth with her sister, Mrs. Lucie Gilman and family.

Members of Whitney Lodge, F. & A. M., to the number of twenty-four went to Dixfield last week and visited King Hiram Lodge. The party went by auto. Miss Lila Gilbert of Lewiston has been visiting her parents in town.

LOCKE'S MILLS.

Mr. and Mrs. W. B. Rand are receiving a visit from his sister and her husband, Mr. and Mrs. Carroll Brewster, of Lewiston over the holidays.

Mrs. Lincoln Hodgkins of Pittsburg, Pa., is a guest of her parents, Mr. and Mrs. C. L. Stowell.

Mrs. Belle Chase of Portland is a guest of her mother, Mrs. Clara Brown, over the holidays.

Mrs. Ruth Young is seriously ill at this writing.

Mr. and Mrs. J. E. Deane and two children of Mr. Deane's arrived in town, Saturday, for the summer.

Mr. and Mrs. J. E. Deane are receiving a visit from her sister from Quebec.

Mrs. R. E. Powers of Dixfield is a guest of her cousin, Mrs. C. B. Bartlett, for several weeks.

Guy Gelin of Mechanic Falls was a week end guest of his sister, Mrs. Gertrude Abbott.

Mrs. Helen Goodwin and Mrs. Bert Goodwin were in South Paris, Saturday, shopping.

Mrs. C. L. Bartlett attended grange meeting at Bryant's Pond, Saturday. Mr. and Mrs. J. E. Deane are receiving over the birth of a son, July 5.

GILEAD.

Mrs. Herbert Wheeler and children are spending a few days with her sister, Mrs. Frank Bennett, at Rumford. Harriet McKinnon of Shelburne, N. H., was in town, recently.

John Richardson went to Gorham, N. H., last Sunday to attend the funeral of Charles Russell.

Mrs. Grace Bennett of Gray has been spending a few days in this place. Mrs. William Adams spent a very pleasant time of visit at the village of Gilead, July 2.

Mrs. Hiram and son, Carl, of Gilead were out to Mr. Russell's place, Mrs. Andrew Abbott, last week.

Master William Newman has returned to school in Gilead.

H. T. Turner and family are at the Gilead, where they have lived a

RUMFORD

Mr. D. Salkin and Miss Martha Salkin of New York are visiting Miss Dora Klein.

Mrs. Carrie Foss is visiting her brother in Portland.

Stanley A. Taylor left last week for Bayfield Canada, where he will spend several weeks with his parents and friends. He will also visit other Canadian cities before returning to Rumford.

Mrs. David Frew has as guests her sister and children of Bangor. After a visit here they will go to Berlin, N. H. to visit Mrs. Frew's mother.

Mrs. Ella Brown and daughters, Mildred and Vivian, left on Thursday last for a two weeks vacation to be spent at Peak's Island.

The Boy Scouts of Rumford and Mexico attended services Sunday morning last at the Universalist Church at the invitation of Rev. William Gaskin, who is one of the local Scout Masters. The boys were all in uniform.

B. J. McGraw manager of the Rumford Institute for the past year, will complete his duties here on Saturday, July 10, and will go to Portsmouth, N. H. Mr. McGraw will be succeeded by a Mr. Sabien of Weymouth, Mass.

Miss Frances Harris of Prospect avenue is entertaining a classmate, Miss Mabel Straker of Attleboro, Mass., for a few weeks.

Dr. and Mrs. William T. Rowe of York street are entertaining Mrs. Tromborelli and daughter, Anita, of Mexico City for a few weeks.

N. Gillis and wife have returned from a week's honeymoon spent in Boston, and have started housekeeping on Hancock street.

Stanislaus Galvariski is clerking in the store of Frank Taylor during the summer months.

A. M. Dunham of Newburyport, Mass., has purchased the restaurant business of Peter Morrill.

The engagement of Miss Kathryn Palmer of Fall River, Mass., and John Greene of Rumford has been announced. Miss Palmer is a popular employee in the telephone office at Oxford River, and Mr. Greene works in the Oxford mill. The wedding will occur in October, on the day that is the 25th anniversary of the wedding of Miss Palmer's parents.

Ralph Given of Andover was the guest of his parents, Mr. and Mrs. R. E. Given, over the Fourth.

Mrs. Daniel McMaster and children are spending the summer at Old Orchard Beach. Mr. McMaster will spend the month of July with his family.

Mr. James Innesett has recently accepted a responsible position in one of the paper mills at Berlin N. H., and with Mrs. Innesett have gone there to make their home.

Mrs. Will Hall of Livermore is the guest of Mrs. L. E. Sanborn of Strathglass Park.

Mr. and Mrs. A. E. Stearns of Penobscot street entertained their nieces, Misses Lillian and Margaret McGivney, and their cousin, Mary McGivney, of Berlin, N. H., for over the Fourth.

George P. Dyer has accepted the position as baggage master at Denist during the summer months.

Manager Walters of Cheney Theatre secured the services of an expert camera man, who took motion pictures of the events that took place on July 5th, in Rumford. These pictures will be shown on the screen at the Open House.

Mrs. Emma Smith and daughter, Mildred, left last week for St. Johnsbury, Vt., where they will visit relatives for the rest of the summer.

Mrs. Lawrence Peterson and two sons, Norman and Roland, are spending a month at Worthing Pond, occupying one of the Kinder camps.

Miss Mary Stone of Portland is the guest of her sister, Mrs. W. R. Henry, of Lincoln avenue.

Mr. and Mrs. Charles Lapham of So. Portland announced the engagement of their daughter, Hilda Gordon, to Walter C. Woods of Somerville, Mass. The wedding will take place the last of July.

Joseph Gauthier is nicely located on the J. P. Hall farm which he recently purchased, and Mr. Hall has moved in to the Gauthier house on York street, which he took in part payment for the farm.

Peter Begonzi, the fruit dealer, was thrown from his team on Rumford road.

FREE MEDICINE

For Stomach, Liver, Bowels

These organs are so important to the bodily health, that we want to show you how to keep them well. Indigestion, dyspepsia, biliousness, sick headache, constipation and numerous other ills come from faulty stomach and bowel action. "L. F." Atwood's Medicine is so safe and speedy, that once you try it, you will not want to do without a bottle of it in the house. Thousands have used it with daily benefit, during the past sixty years. Let us send you a trial bottle free. Write your name and address, very plainly, on a postal, and mail it to us. We will send you the free sample postpaid by return mail.

FREE—On receipt of a yellow outside wrapper with your check, of the medicine we will send you one of our New Six Books with a full description of high grade medicines, useful to every family.

State Assessor,

CRYING FOR HELP

Lots of It in Bethel But Daily Growing Less

The kidneys often cry for help. Not another organ in the whole body more delicately constructed; Not one more important to health. The kidneys are the filters of the blood.

When they fail the blood becomes foul and poisonous. There can be no health where there is poisoned blood. Backache is one of the frequent indications of kidney trouble. It is often the kidneys' cry for help. Heed it.

Read what Doan's Kidney Pills have done for overworked kidneys.

Proof of merit in the following statement:

L. O. Ames, Congress St., Rumford Falls, Me., says: "Doan's Kidney Pills relieved me in a short time of kidney trouble, which had annoyed me for quite awhile. I certainly am glad to recommend Doan's Kidney Pills." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ames had. Foster-Milburn Co., Props., Buffalo, N. Y.

One last week by his horse being frightened and running. Mr. Begonzi's shoulder was broken also his left arm. The horse ran from Rumford avenue down through Congress street and was not caught until near the Maine Central R. R. passenger station.

Mrs. Esther Moore Bemis and little daughter, Ruth, arrived in town on Saturday last to spend the summer with her mother, Mrs. Nahum Moore, of Rumford avenue.

Mr. and Mrs. Priest of Pittsfield, father and mother of Mrs. Lucian Blanchard, will keep the Blanchard home open while the Colonel and Mrs. Blanchard are away on their trip to Seattle and the Pacific Coast.

Mrs. Cleon S. Osgood entertained at bridge at her home on Franklin street on Thursday evening last in honor of her daughter, Mrs. B. Gould McIntire, of Georgetown, South Carolina, who, with her two boys, will spend the months of July and August with her parents in town.

The Rev. Lucien M. Robinson of Philadelphia arrived in town last week for a short stay with his aunt, Mrs. Nahum Moore, of Rumford avenue.

Col. Lucian W. Blanchard was in Augusta last week to appear before the Public Utilities Commission in a continuation of the hearing on separation of grades or proper protection to public travel at the Dissee crossing.

The first hearing on this important matter was held in Rumford on May 27 and was adjourned at that time for further hearing at the office of the Commissioners. Col. Blanchard's contention is that the grades should be separated or a gate installed rather than any automatic arrangement which may fail at the most critical time. Hon. Seth K. Carter, attorney for the Maine Central R. R. Co. and Mr. B. T. Wheeler, chief engineer for the road, appeared for the Maine Central, and the final decision has resulted in the fact that the trains will probably be instructed to slow down at that point to about six miles an hour, and that an automatic bell will be installed at that place.

Miss Luella Mann of Franklin street, daughter of Mr. and Mrs. William H. Mann left last week for a trip away where she may get entire change of scene and air, in hopes that it may greatly benefit her health.

Miss Jennie Pratt left last week for Lewiston, where she will spend a week with her parents. Upon her return, she will be accompanied by a friend, Miss Margaret Trolfar of Kinsasha, Wisconsin, who will spend the summer with her.

Mr. and Mrs. Ed Abbott of East Rumford are receiving congratulations upon the birth of a son. The little stranger arrived on Thursday last.

Miss Esther Ann Thieshoefer, local district nurse, left on Thursday last for the central part of New York State, where she will spend a month among her relatives.

Mr. and Mrs. Frank Elliott of Norway were the guests of H. L. Elliott and family of Washington street for the Fourth of July celebration.

The Bowers & Vallee Co. will move into the store formerly occupied by the Cote Pharmacy Co. They will take possession about the middle of July.

The Oxford Paper Co. in town entertained a party of their buyers from New York City for a few hours on Thursday last. The party were shown about the town in automobiles, stopping for inspection of all places of interest.

An accident occurred near the Oxford mill on Friday morning last. Three men were unloading pulp wood for the mill when a train of cars backed into the car upon which the pulp wood was loaded, throwing the men down and causing injuries. The man who was the most seriously hurt had severe cuts about the head another suffered with a broken rib, while the third received an injury to his back. They were rushed

WEST PARIS

A. K. Dimock of Boston who has been the guest of friends here, returned home, Tuesday morning.

Winfield Emmons, a former resident of West Paris, died at the home of Alden Day in Oxford, Wednesday noon, June 30. Mr. Emmons' death resulted from heart failure and came suddenly, while sitting at the dinner table, although he had been in poor health for some time. Mr. Emmons was the son of the late Jacob Emmons and came to live in Greenwood when a very young man. He had many friends in this vicinity and was a respectable, kind-hearted man. A sister, Mrs. Christiana Emmons, and two brothers, David and William Emmons, reside here. The funeral was held from the residence of his brother, David Emmons, Friday afternoon, Rev. C. H. Young officiating, and Granite Lodge, E. & A. M. attended and performed their burial service. The interment was in W. Paris cemetery.

Mrs. Fannie Emmons and grandson, Karl Hayes, are at their residence here for the summer vacation. Mrs. Emmons moved to Portland last fall so that Karl could attend school and be at home.

Mrs. H. Farrar is receiving a visit from her father, Mr. Ross, and also her brother's wife, Mrs. Rosa, of Prince Edwards Island; also Mr. and Mrs. Percy Berry and two children, Leland and Gladys, of Massachusetts.

The Camp Fire Girls held a lawn party, Wednesday evening, July 7, at the school grounds. Ice cream and home made candy was on sale. The Thin Ladies and Fat Ladies ball teams played at 6.30.

The lawn party held at the residence of Dr. and Mrs. Wheeler and the school grounds on Wednesday, June 30, was a great success, financially and socially. Twenty-eight dollars was the net results for the Good Will Society. The afternoon was devoted largely to tennis and croquet for those who wished, others sat around and ate candy, pop corn and ice cream and enjoyed a social chat. There was a food sale also. At 6.30 came the greatest interest, when more than two hundred people in teams and autos and on foot witnessed the ball game between the Fat Ladies and the Thin Ladies resulting in a score of 7 to 10 in favor of the Fat Ladies. The score was as follows: Fat Ladies: Agnes Grey, 3; Emma Hill, 1; Laura Hill, 2; Maud Mann, 1; Lena Farrar, 1; Ellen Mann; Annie Wheeler, Leona Dyer, 1; Mildred Parker; Clara Hall; Martha Porter, 1; Mary Stetson; Lillian Young. Miss Dexter was hit in the eye by a ball and Miss Clara Bacon supplied for her during the game.

Mrs. Gertrude Marston and daughter, Leone, are visiting Mrs. Marston's sister, Mrs. Luella Proctor and family, at Norridgewock.

Rev. Dwight A. Ball, Scout Master, and 20 Boy Scouts recently enjoyed a three days outing at Twitchell's Pond, Greenwood.

The Fourth passed very quietly. There was the usual night demonstration by the boys. A dance on Friday evening. Saturday and Sunday a few people went out of town and Monday these at home made an effort to enjoy themselves and succeeded well. The people on Pioneer street who remained at home had a neighborhood picnic and ate their dinners on the piazzas of John Brock and S. R. Johnson. The houses are near together and they had great fun. Several guests from other parts of the village were invited and thirty in all were present: Mr. and Mrs. Charles Martin and two children, Mr. Hussey, Clara and Alice Berry, Morton Berry, Mr. and Mrs. A. D. Colburn and Helen, Mr. and Mrs. B. R. Johnson, P. P. McKenney, Clara Hall, Mr. and Mrs. John H. Brock and Myrtle, Mr. and Mrs. Welch, Mr. and Mrs. C. F. Harden and Laura and Alice Barlow, Miss Nora Danham of South Paris, Mr. and Mrs. E. J. Mann, E. R. Berry.

After the sun came out the party enjoyed themselves with tennis. The French people had a drama entitled "Jealousy," with specialties followed by a dance, Monday evening.

Mr. and Mrs. E. N. Marston and Mr. and Mrs. Robert Shaw and daughter, Volma, motored to Rumford Falls in J. W. Cummings' new auto.

Mr. and Mrs. Walter Ring and son, Wendell, were at Bethel over the Fourth.

to the McArthur Hospital, where immediate surgical attention was given them.

Mr. Austin T. Hyde and family of Penobscot street spent the week end including the holiday, at Worthing Pond, renting the H. L. Elliott cottage for the stay.

Mr. Archie Felt went to Portsmouth, N. H., for the holiday season to play in the Livermore Falls band which accompanied the Livermore Falls League to Portsmouth to attend the Uniform Rank, K. of P., of New England Field Day which was held at that place on July 5th.

Many a man who acts on the square during the day is a rouser at night.

ANDOVER

Mrs. Emma Adams from Boston is the guest of her sister, Mrs. John French.

Miss Helen Akers and Matilda Hall have gone to Ogunquit to work in a hotel during their vacation.

A number of people from town attended the celebration at Rumford, Monday, July 5th.

Mr. and Mrs. Frank Perry from Cambridge are spending this week at the Milton House with Mrs. Perry's father, William Milton.

There was a small company at the dance, Monday evening. Those present from out of town were Carroll Elliott and David Glines from North Rumford, Howard Thurston and Mr. and Mrs. Ralph Young from Bethel.

Mr. Henry Dunn passed away Monday noon at his home at Andover Surplus after a number of weeks of illness. He served in the Civil War and was a honest, upright citizen and will be missed by his old friends. He was nearly 75 years of age, and leaves a son, Bert S., with whom he lived, also two daughters, Mrs. Llewellyn Damon and Mrs. Herbert Hutchins, and a number of grandchildren, also a brother at South Paris. The interment was at the Surplus.

Edwin Noble of Hyde Park, Mass., is spending a few days at Glenella.

Prof. J. Orville Newton and wife of Kent's Hill were guests Monday and Tuesday of Mr. Lucien Akers and family.

Frank Lovejoy has moved his family into Bert Perry's house.

Clarence Newton has moved his family in his house recently purchased of Chas. Snell.

Mr. Snell is living in Robert Howey's house for the present while his bungalow is being completed.

Mayor Porter and family of Auburn arrived in town, Sunday evening and are guests of Frank Thomas and family.

Miss Stella Roberts, who was graduated from the Farmington Normal School in June, will teach at Dixfield Center this fall.

Rev. Geo. Graham was a guest to tea at Chas. Andrews', Monday evening.

Roger Thurston, wife and baby, Cedric Thurston and Florence Akers visited at Mr. and Mrs. Irving Hanson's, Monday.

Mrs. Roy Hilton and children are the guests of her parents, S. W. Marston and wife.

Mrs. Elmer Clough returned last Thursday from Portland, where she had been stopping with her mother, who is ill in the hospital there.

Harrison Amber has gone to Kennebago for the summer.

A pretty wedding took place at the home of Mr. and Mrs. M. A. Howard, Wednesday, June 30, when their daughter, Lucretia, became the wife of Guy Akers. Rev. Geo. Graham performed the ceremony, the single ring service being used. Mrs. Akers is a graduate of the Gorham Normal School and has taught successfully in Andover and Rumford. She is a member of the Congregational choir and of the Sunday school. Mr. Akers is a graduate of Kent's Hill and has many friends who wish them much happiness. A reception was given them Wednesday evening at the home of Mr. and Mrs. Lewis Akers which was largely attended. Mr. and Mrs. Akers have gone to Kennebago where they will spend the summer.

Mrs. Gladys Pratt Boulter from Rangely is visiting friends in town.

Mrs. A. L. Colby from Auburn is visiting at P. P. Thomas'.

Geo. and Robert Dunn were guests of their aunt Mrs. Roger Thurston, the first of the week.

Mrs. Ellingwood and children have returned from the Lakes.

EAST BETHEL

Mrs. Etta Bartlett recently visited relatives in Berlin, N. H.

Mr. G. M. Bartlett of Gardiner was a week end guest of Mr. and Mrs. Will Bartlett.

Quite a number from here attended the Fourth of July celebration at Rumford Falls.

Mr. and Mrs. Elizabeth Dean and little daughter are guests of relatives at Mechanic Falls.

Mr. and Mrs. J. H. Swan entertained relatives from South Paris over the Fourth.

Mr. and Mrs. Irving Kimball of Boston passed a few days and the Fourth with their parents here.

Mrs. Fred H. Howe has been spending the past week and over the Fourth, the guest of Mr. and Mrs. Fred Hamlin and Mr. and Mrs. A. J. Cate of Milan, N. H.

Mrs. H. W. Kimball and son, Lawrence, of Bethel were guests the past week of her daughter, Mrs. John Howe and family.

Mrs. H. P. Lyon and two little daughters of Rumford Falls were guests over the Fourth of her parents, Mr. and Mrs. H. E. Bartlett.

Mr. and Mrs. Geo. Swan entertained a party of relatives for the Fourth.

Rev. E. H. Stover of Bryant's Pond held preaching services in the East Bethel Church, Sunday P. M., July 11 at 8 o'clock, and the following every two weeks at the same hour.

Directors.

WEST BETHEL.

Mrs. Sadie Vashaw, who underwent an operation at the hospital in Lewiston, is reported to be gaining nicely. Mr. Vashaw and Mrs. Stella Goodridge were down to see her, Saturday.

Mr. and Mrs. Stephen Westleigh are at work for Mr. Vashaw.

Mrs. Nettie Mason and son, Gordon, spent the Fourth in South Paris.

Clarence Tyler has exchanged his stand with Mr. Wakefield and Mr. Wakefield has sold the same to Mr. and Mrs. Stephen Westleigh.

Mr. and Mrs. Hugh Thurston spent the Fourth away.

Mrs. Dorothy Martin is ill at her mother's, Mrs. G. D. Morrill.

Mr. and Mrs. C. J. Bell from Oxford were Sunday visitors at G. D. Morrill's.

Miss Ermina Allen from Manchester, N. H., visited at L. E. Allen's last week.

Harry Reid, the station agent, is having his vacation and cutting his hay.

Mrs. Maude O'Reilly is helping W. J. Douglass in the store and post office in the absence of Mrs. Dorothy Martin.

Mrs. J. E. Pike was visited by her niece from Newton, Mass., last week.

The Fourth of July celebration at West Bethel of July 3rd was a big success. The rain stopped the big parade in the morning but the base ball games, big picnic supper, contests, fire works, crackers, horns, ice cream, etc., made it enjoyable for all.

July 3rd the West Bethel base ball team vs Gilead team played a 9 inning game, with a final score of 15 to 13 in favor of the home team. The Gilead team was organized June 23, with Mr. Earl Coffin as manager and Mr. Grover Griffin as captain. The West Bethel team was organized June 26 with Mr. Dean Martin as manager and Mr. Harold Linton as captain. A series of summer base ball games and tennis tournaments are being planned.

Fourth of July celebration at West Bethel was a big success.

Always try to favor your friends. You can use a few more.

Summer Homes Wanted

NEW ENGLAND'S summer visitors from all over the country are again seeking the pleasant spots. They are looking for the well-managed hotels and the pleasantly located boarding places and farms where paying guests are received.

Every spring these people turn to the advertising columns of the Boston Evening Transcript, where announcements of the best summer places are published.

Though many families prefer to lease farms, houses, or cottages in the country, a large number of properties are sold every year to Western people attracted to the New England States by advertisements in the Boston Transcript.

If you desire to reach the well-to-do people and attract them to your town insert a well-worded advertisement in the Boston Transcript.

Full information, rates, copies or advice cheerfully given on request.

Boston Transcript Co.
824 Washington Street, Boston, Mass.

Five—ten—twenty, years from today the files of LESLIE'S will be priceless. For LESLIE'S is the one great national illustrated weekly newspaper of today.

Special war correspondents and photographers by the score "cover the war" for LESLIE'S—in Germany, in Austria, in France, in Russia, in Britain, in Belgium, in Turkey, in Egypt, in the Far East, on the high seas.

The LESLIE'S news and pictorial service "covers" not only the war, but the world, for the benefit of its 350,000 subscribers. At home or abroad—wherever news is happening—there the unparalleled service of this great weekly newspaper is recording it and picturing it for the people of the United States.

For sixty years LESLIE'S has brought to the American people week by week the most important news of our own and every other country, not in words alone, but also in pictures—that universal language which tells more at a glance than pages of words could describe.

No wide-awake American can afford not to have LESLIE'S in his home every week. Every member of the family will profit by it. It is not too "old" for the youngest child, while every page teems with interest for every man and woman in the family.

Get the current issue at any newsstand for 10 cents.

Better subscribe by the year (\$5) and be sure of receiving every issue promptly on Thursday.

AGATE AND ONYX.
The difference between agate and
onyx is that agate is a natural stone,
while onyx is a synthetic stone.
Both are used for jewelry and
decorative purposes. Agate is more
durable and has a natural pattern,
while onyx is more uniform and
has a synthetic pattern.

POEMS WORTH READING

THE PATAL GARDEN.

Dr. Jagader Chunder Bose, who has
studied plants in India, reports that
they are actuated by the same passions
and suffer the same pangs as human
beings.
Wherever the beans I endeavored to
sow,
The carrots grow jealous and wither
away;
And if I devote any time to the peas,
The egg plant gets peeved and refuses
to lay.
The onion objects to the slightest at-
tention
I pay to the herbs or the early toma-
toes,
And the cabbage gets riled, as a petu-
lant child,
Whenever I see the potatoes.

The celery aches if I water the corn,
The sensitive strawberry blushes and
goes
If I sprinkle the shives, and the radish-
es mourn
Whenever they see me at work on the
sprouts.

The spinach is lashed to a lather of
fury
When the grape vine is pruned or the
currants are sprayed,
And I don't dare to wash any bugs
off the squash,
Lest the turnip tops languish and fade.

And so, when the time of fruition ar-
rives
And I seek some return from my sum-
mer of toil,
I have neither onions nor spinach nor
shives,
Nor cabbage nor celery; nothing but
soil.

Give, give are they all, the unfortu-
nate victims
Of jealousy, hatred and vaulting am-
bitions;
For by some black mischance my par-
ticular plants
Had frightfully mean dispositions.

SOMETHING TO LIVE FOR.

Something to live for, that makes
worth while
The toil and the struggle, and that's
why we smile
Something to live for and look for-
ward to,
That's why the bright sun in clear
skies of blue
Shines brightly around us and blue
skies smile
In the path that we climb to the hopes
that are wide.

Something to live for—like living for
others,
All to the holy, sweet spirit of brother-
hood;
And something to dream of and some-
thing to feel,
That the shadows go by and the clouds
drift apart
And the joy of the sunshine burns
bright in the heart.

Something to live for—that is the
thing
Help us to lift up our heads and sing,
To take the task daily with love and
with prayer,
And trust the long lane of our trouble
and care.

Will you see the shadows have deep-
ened so long
From the silence of tears will have
conquered the song.

DON'T TAKE IT TO HEART.
When a man is troubled
By a woman's fault,
Let him be a man,
And into the waters of life depart.
Let him not be troubled,
Let him be a man,
And into the waters of life depart.

When a man is troubled
By a woman's fault,
Let him be a man,
And into the waters of life depart.
Let him not be troubled,
Let him be a man,
And into the waters of life depart.

When a man is troubled
By a woman's fault,
Let him be a man,
And into the waters of life depart.
Let him not be troubled,
Let him be a man,
And into the waters of life depart.

When a man is troubled
By a woman's fault,
Let him be a man,
And into the waters of life depart.
Let him not be troubled,
Let him be a man,
And into the waters of life depart.

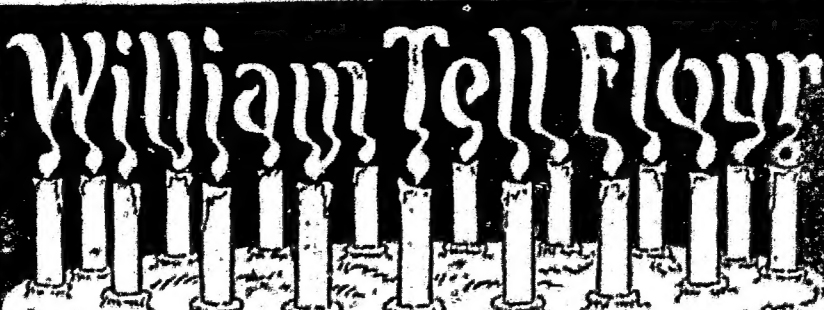

When a man is troubled
By a woman's fault,
Let him be a man,
And into the waters of life depart.
Let him not be troubled,
Let him be a man,
And into the waters of life depart.

When a man is troubled
By a woman's fault,
Let him be a man,
And into the waters of life depart.
Let him not be troubled,
Let him be a man,
And into the waters of life depart.

When a man is troubled
By a woman's fault,
Let him be a man,
And into the waters of life depart.
Let him not be troubled,
Let him be a man,
And into the waters of life depart.

When a man is troubled
By a woman's fault,
Let him be a man,
And into the waters of life depart.
Let him not be troubled,
Let him be a man,
And into the waters of life depart.

When a man is troubled
By a woman's fault,
Let him be a man,
And into the waters of life depart.
Let him not be troubled,
Let him be a man,
And into the waters of life depart.

William Tell Flour

Makes Cakes Like This!
Light, tender, mouth-melting cake, the
kind that you are proud to serve, whether
it is just a cake you stirred up for the
family or a splendid big rich one for
the birthday party.

Wonderful for pastry, too, and just as good
for biscuits, hot rolls and bread.
Goes farther—a help in household economy
—because it is milled by a special process
from Ohio Red Winter Wheat.

Your grocer will have it. Good grocers like
to sell **William Tell Flour**

THE NATIONAL CAPITAL

Continued from page 1.

Did your mind of selfish motives,
Let your thought be clean and high;
You can make a little Eden
Of the sphere you occupy.

Do you wish the world were wiser?
Well suppose you make a start,
By accumulating wisdom
In the scrapbook of your heart.
Do not waste one page on folly;
Live to learn, and learn to live.
If you want to give men knowledge,
You must get it ere you give.

Do you wish the world were happier?
Then remember day by day
Just to scatter seeds of kindness
As you pass along the way;
For the pleasures of the many
May be oftentimes traced to one,
As the hand that plants an acorn
Shelters armies from the sun.

HAY FROM THE FEEDERS' STANDPOINT.

By J. H. Blanchard, Dairy Instructor,
in Quarterly Bulletin.

After the selection of the dairy herd,
the most important point for the
dairyman to consider is the production
of the best quality of hay. Hay is a
necessary part of the ration for all
dairy cattle. As grass is the basis of agricul-
ture, he can profitably consider the
relative value of the different kinds of
grasses and their feeding value at dif-
ferent stages of growth.

It was formerly believed that ani-
mals have the power of changing and
combining the different elements in
their food into such forms as the dif-
ferent functions of their bodies require;
but careful research has shown that
the laboratory work is done by the
plant rather than by the animal—that
is, that animals accumulate the different
elements already prepared for them in
the plants. In the hay, the elements
required for animal nutrition must not
only be found in the forage plants,
but these elements must be avail-
able for the animal's use.

In comparing rations for dairy
cattle much time has been devoted to
the amount of different kinds of feed
to be given, but very little has been
said about the availability of the diges-
tible nutrients contained in the differ-
ent kinds of hay. Now the value of a
feed is determined by the amount of
digestible nutrients that it contains,
but by the amount of nutrients that
are available for the animal's use.

Much experimental work has been
done along this line by some of our
best expert feeders, and it has been
found that hay that is high in diges-
tible nutrients is not necessarily high in
available nutrients. In fact, hay that
is high in available nutrients is usually
found to be high in digestible nutrients.
We are told that cattle in the region
of the Ohio River are fed hay that is
high in available nutrients. It is
said that this hay is made up of
many different kinds of feed, giving
a variety of nutrients that are avail-
able for the animal's use.

It is important to remember that
hay that is high in available nutrients
is not necessarily high in digestible
nutrients. In fact, hay that is high
in available nutrients is usually found
to be high in digestible nutrients.

PAY AND PROMOTIONS IN OUR NAVY

Top (left), Annapolis midshipmen who rose from the ranks. Left to right, John W. Rowe, Horace S. Corbett, William W. Warlick, Harold H. Hungate, William Busk. They won their appointments in competitive examinations. Top (right), Class work, Artificers' School, Norfolk, preparing men for promotion and increased pay. Bottom, seaman gunners class in navy yard at Washington. Section under instruction overhauling seven inch gun.

THE United States navy is the best paid navy in the world, and it presents opportunities for advancement equal to those of almost any profession. A man-of-war's man never loses his job, even temporarily, for lack of work. He is always sure of his pay, of three substantial meals each day, of clean, healthful surroundings. His health is the primary concern of a skillful staff of physicians. In time of injury or illness he receives without cost the best medical and hospital attendance, and after thirty years of service he may retire on three-quarters of his pay, assured of a never-failing income so long as he lives.

Excepting the cost of his clothing, after the first outfit, which is furnished gratis, and a deduction of 20 cents a month for the hospital fund, a man-of-war's man's pay is all "net." He has no board to pay, no rent and no doctor's bills. Considering his steady work and perquisites, he is much better off than the average mechanic or clerk contending with losses through ill health, strikes, weather and business depressions.

A recruit can readily see the position and salary he may earn by earnest and intelligent effort. From the time he enters the training station he receives useful instruction and encouragement. His advance can be measured only by his diligence, behavior and ability, for opportunities extend over a field offered by no other service. Seamen are required to steer, man the boats, the guns and turrets and do the general work of the ship outside of the engine room; clerks, stenographers and bookkeepers to handle records and accounts; nurses, stewards and cooks; electricians, machinists, plumbers, painters, ship fitters, cooper-smiths and blacksmiths and boiler-makers to keep ships in repair; radio operators, firemen, torpedo men to handle torpedoes.

The special service branches embrace gunners (clerks), nurses, musicians and cooks. In the seaman branch we find the men most intimately identified with the navigation and fighting of the ship, the gunners, torpedo men, quartermasters and boatswains, and in the officer branch the tradesmen of the navy, machinists, electricians, carpenters, cooper-smiths, painters, etc. The following table gives their various ratings of each branch and the respective rates of pay:

SEAMAN BRANCH.	
Apprentice seamen.....	\$17.00
Primary seamen.....	20.00
Seamen.....	24.00
First class.....	28.00
Second class.....	32.00
Third class.....	36.00
Fourth class.....	40.00 and 44.00
Chief petty officers.....	48.00 to 72.00
ARTIFICER BRANCH.	
Apprentice.....	\$21.00
Primary.....	24.00
Artificer.....	28.00
First class.....	32.00
Second class.....	36.00
Third class.....	40.00
Fourth class.....	44.00 and 48.00
Chief petty officers.....	48.00 to 72.00
SPECIAL BRANCH.	
Ensigns.....	\$17.00
Junior, second class.....	21.00 and 24.00
Junior, first class.....	28.00
Junior, second class.....	32.00
Junior, third class.....	36.00
Junior, fourth class.....	40.00 and 44.00
Chief petty officers.....	48.00 to 72.00

Attractive as these inducements are, they by no means limit the advantages offered by the navy. Uncle Sam knows the value of experienced men, so when an honorably discharged man who is a United States citizen enlists the second time his pay is increased \$6.00 a month and \$2.00 a month more for each subsequent re-enlistment. In addition, he will get four months' pay and \$150 a month if he re-enlists within four months. Second enlistment men have an opportunity to attend the profes-

sional schools maintained by the navy, courses at which facilitate promotion and increased pay. Men of exceptional skill in handling the guns receive extra compensation of from \$2 to \$10 a month, depending on the size of the gun. Divers and men in the submarine service are rewarded for the risks they assume with additional pay, and those detailed for other duties, such as ship's tailors, certain coxswains and mail clerks, have an income additional to the pay of their ratings.

Any disabled person who has served as an enlisted man in the navy for ten years and has not been discharged for misconduct may apply for aid from the surplus income of the naval pension fund, which may be granted upon the recommendation of a board of not less than three naval officers in "suitable amount," to be approved by the secretary of the navy.

After twenty years of service any enlisted man disabled from sea service by reason of age or infirmity and who has not been discharged for misconduct shall, if he so elects, be en-

which are now limited to them, and upon qualifying they will be commissioned assistant paymasters.

Yet another door is open to those who have good records and ability, but who have been unable to advance by the channels mentioned. They may go up through the ranks. Men who have served continuously and reach the grade of chief or first class petty officer are eligible for appointment as warrant officers, with pay of from \$1,500 to \$2,400 a year. Warrant officers are boatswains, gunners, carpenters, machinists and pharmacists. To be eligible for this appointment seven years' service at sea, with average efficiency of not less than 85 per cent, is necessary, and candidates must be under thirty-five. Warrant officers after serving four years in this grade are promoted to chief warrant officers, and at the age of sixty-two they are retired on three-quarters pay.

Every year twelve warrant officers—boatswains, gunners and machinists—who are under thirty-five and have completed four years' service in the

CLASS AT WORK IN NAVY ELECTRICAL SCHOOL.

titled to a pension equal to half pay and be admitted into the Naval home, Philadelphia, Pa.

Any enlisted person in the navy who has served thirty years may be placed on the retired list if he so desires. All service, whether in the navy, marine corps or army, is credited. On retirement he is allowed three-quarters of the pay he was receiving when retired and in addition thereto allowances amounting to \$15.75 a month for rations, quarters, fuel and light.

Promotion to the highest ranks is open to the enlisted man. As an American citizen he may be nominated for admission to the United States Naval Academy at Annapolis by his congressman or senators, who have certain nominations in their giving. Last year at the earnest solicitation of Secretary Daniels congress authorized the secretary of the navy to appoint fifteen enlisted men to Annapolis each year. They must win the nomination in a competitive examination and must have completed one year's service with honor and be under twenty years of age. Enlisted men with good records, who are under twenty-six years of age, may also participate in examinations for the pay corps. appointments is

grade may become ensigns upon qualifying in a competitive examination. It will be seen it is possible for enlisted men to become commissioned line officers without attending Annapolis at all.

A close inspection of the foregoing account will reveal the fact that it is now possible for a lad to enter the navy at the age of seventeen on the lowest rung of the ladder and in consequence of promotions due to diligence, good conduct and ability retire as a chief petty officer at the age of forty-seven, when he is still capable of entering profitable employment in civil life, on a pay, including all allowances, of \$100 or more a month. This, it is needless to say, is not equaled by any industrial institution in the country.

This article is intended to inform young men of the opportunities offered by service in the navy. The bureau of navigation, Washington, and the navy recruiting office, Indianapolis, Ind., will be pleased to furnish any additional information desired. A man's success in the navy can be measured only by the staff that is in him. Illustrious attention to duty will receive its reward. As in every field of endeavor, the same is the architect of his career.

DR. KENNEDY'S FAVORITE REMEDY

It is the real cause of Kidney and Blood troubles, by restoring right action of Stomach, Liver and Bowels, overcoming indigestion and constipation dangers (Auto-Intoxication); thus Kidneys and Bladder are aided, the blood purified. Unbroken record of wonderful success.

HOW PRINTERS' INK IS MADE.

Exhibit in the Smithsonian Building at Washington.

A new exhibit in the division of graphic arts of the United States national museum, located in the Smithsonian building at Washington, illustrates the several different processes and shows the many ingredients in the making of printers' ink. It starts with the raw products, illustrates the manufacture by photographs and diagrams described by labels, and shows the finished products ready for use.

The manufacture of modern printing ink requires a careful choice of materials and their very skilful manipulation. The materials fall into two groups, the pigment or color, and the medium or varnish in which it is ground. The varnish is prepared from linseed oil and rosin, but, while linseed oil is the most satisfactory medium, cheaper ones, such as rosin oil and even mineral oil, are used. Various gums and waxes are employed to give a greater consistency. The drying quality is increased by the addition of metallic substances which tend to make the oil in the ink oxidize. This ink does not dry in the common sense, by evaporation, but passes through a chemical change which leaves a totally different substance. The varnish holds the color pigments together, and makes possible their mechanical manipulation on the press, lending luminosity and added richness to the colors.

In preparing the varnish the oil is first boiled and burned until it arrives at the proper consistency when the rosin is stirred in. The pigment is added and the mass ground to an impalpable fineness. Of course, every manufacturer has his own methods and trade secrets, which is only to be expected when it is realized what great care and precision the printing-maker has to exercise. Such an ink must have free distribution, leaving the work clear and sharp with no oil on the paper; it must not adhere too tenaciously to the types, but leave them clean, and must at the same time dry quickly on the paper, but not on the rollers; besides which it must be proof against the effect of time.

In the manufacture of the common black ink, lampblack and carbon black are the most common pigments. They are really the same thing, that is, finely divided carbon, but differ in the process of manufacture. Sometimes a little indigo or Prussian blue is also employed with the carbon. For wood engraving carbon and ivory black or a very fine bone black known as Frankfurt black, are mixed. In lithographic reproductions Paris black is used.

The ingredients in colored inks include some chemically-made colors, such as vermilion, prussian or bronze blue, chrome yellow and ultramarine blue. The "lake" pigments, made by precipitating a coal tar dyestuff on a metallic base, produce colors of great brilliancy and extreme fineness of texture. Natural earth colors are not used so much as formerly, their shades being now matched in the "lake" colors. Red ink is made with carmine or cochineal, and in cheap inks, red lead, but it rapidly blackens and is consequently unsuitable for permanent work. Blue inks are made from indigo or prussian blue; yellow with lead chromate or yellow ochre; green and purple by mixing yellow and blue, and red and blue, respectively.

The only white ink sufficiently opaque to appear white on a dark surface is made from white lead. Tints and light tones of the various colors are made by mixing the colors with white or another transparent base such as magnesium or blanc fixe. Ink making machinery consists of several types of mixing machines, with which the medium and dry color are first roughly mixed together, and mills on which the mass is thoroughly ground. The type of machine used depends upon the character of the ingredients and the result desired. Ink for use on soft absorbent paper, such as "news" ink, requires very little grinding and no preliminary mixing, while other varieties are not only run over the mixer, but receive repeated grindings on roll or mills.—Springfield Republican.

SUBSCRIBE NOW FOR THE OXFORD COUNTY CITIZEN.

DIXFIELD.

At the regular meeting of King Hiram Lodge, F. & A. M., held Tuesday evening, June 29, at Masonic Hall, the M. M. degree was conferred upon four candidates by the Whitney Lodge of Canton in a very pleasing and impressive manner. A large number were present from the lodges of Bethel, Rumford, Portland, Norway, Wilton, South Paris, Strong and Weld, besides a large attendance from King Hiram Lodge. Speeches were enjoyed from members of the various lodges. Refreshments of chicken, ham and egg sandwiches, cheese, doughnuts, coffee, cake and ice cream, followed by a smoke talk, were enjoyed at the close of the meeting.

Rev. R. E. Gilkey, pastor of the Congregational Church, gave a very interesting discourse at the Sunday morning service from words found in Psalms 115-8. Topic, "Cherishing Correct Conception of God." The meeting of the Y. P. S. C. E., held in the evening at the chapel, was led by George Hubbell, and was of special interest. Mr. Hubbell gave a pleasing address on "National Ideals."

Dr. James M. Sturtevant returned to Jersey City Thursday, after enjoying a two weeks vacation with his parents, Dr. and Mrs. J. S. Sturtevant.

B. C. Waite and Andrew Haley of Canton were in town one day last week calling on friends.

George Gray and family went to Weld this week to spend the summer at their cottage on the shore of Lake Webb.

A. S. Morse and family from Chester, Mass., were guests, Saturday, of Mrs. Morse's aunt, Mrs. Ada March.

Walter Davenport, wife and child, from Rangely were in town last week, visiting at the home of Will Davenport and family.

Orlando Bisbee and family and Frank Collins and family are enjoying a vacation of a few days at Lake Webb.

D. D. Berry of Berry Mills was in town on business, Saturday.

Quite a delegation of the village people attended the celebration at Rumford, Monday.

John Harlow, Jr., a student at Harvard College, came last week to spend the summer vacation with his parents, Hon. J. S. Harlow and wife.

Several relatives in town attended the funeral service of Mrs. Tyler Hutchinson, which was held at Berry Mills, Thursday of last week. Rev. R. E. Gilkey of this place officiated at the service.

The "Tampa" Camp Fire Girls of Dixfield will give a public demonstration of their work at the "ball grounds," Weld, Friday evening of this week. The entertainment will consist of the Council Fire, folk songs and dances, and awarding of honors. A large number of the village people are planning on being in attendance.

A party of twelve left here Sunday morning by automobile to visit the White Mountains.

FORESTRY SUMMER CAMP COURSE.

Plans are now being completed for the forestry summer camp course which will be given at Camp Lunkase, near Staceyville, as last year. The camp will be opened on August 4 and will continue till August 18th inclusive.

This two weeks course was started in the summer of 1913 in response to a demand for a popular short, introductory course in forestry. The staff of instructors at the University of Maine are in charge of the work, but it is not a part of the regular four years professional course in forestry given at the University.

No tuition is charged, but living expenses while in camp are divided pro rata between those in attendance, thus making the expense very light. Tents, blankets and cooking equipment are all provided at the camp. The work consists in lectures, general discussions of forestry problems, and practical field work, the latter occupying fully two thirds of the time.

There are no entrance requirements of any kind excepting that the student be at least 18 years of age, and in good general health. The course is particularly recommended to students who are thinking of taking a college course in forestry. They can have ample opportunity to learn whether or not the work will be to their liking, and the attendance in the past has also included guides, patrolmen, cruisers, timberland owners, pulp and lumber mill men and others interested in forestry from the economic standpoint.

Registrations are now coming in and all desiring to attend this season's camp should send their applications to Professor John M. Briscoe, Department of Forestry, Orono, Maine, before July 15th, in order that reservations may be made for them, as the total attendance is limited to from 12 to 14 each year.

A leaflet giving full particulars will be sent free on request, and any other detailed information gladly furnished.

This opportunity to acquire an introduction to the general principles and methods of forestry work should be very popular. The expense is very small, the equipment provided by the Department, and the site contributed by an owner who is interested in practical forestry. There are ample opportunities for studying all of the various

PROBATE NOTICES.

To all persons interested in either of the Estates hereinafter named:

At a Probate Court, held at Paris in and for the County of Oxford, on the third Tuesday of June, in the year of our Lord, one thousand nine hundred and fifteen. The following matter having been presented for the action thereupon hereinafter indicated, it is hereby Ordered:

That notice thereof be given to all persons interested, by causing a copy of this order to be published three weeks successively in the Oxford County Citizen newspaper published at Bethel, in said County, that they may appear at a Probate Court to be held at said Paris, on the third Tuesday of July, A. D. 1915, at 9 of the clock in the forenoon, and be heard thereon if they see cause.

John Porter late of Dixfield, deceased; petition that Aretas E. Stearns or some other suitable person be appointed as administrator of the estate of said deceased presented by M. A. Howard, Roger L. Thurston and John F. Talbot, Overseers of the Poor for the town of Andover, creditors.

William H. Garey late of Greenwood, deceased; petition for license to sell and convey real estate presented by Maria Garey, administratrix.

M. Ellen Locke late of Bethel, deceased; petition for license to sell and convey real estate presented by J. Oran Douglass, administrator de bonis non.

Louis F. and Clarence K. Billings, minors; petition for license to sell and convey real estate presented by Robert H. Billings, guardian.

ADDISON E. HERRICK, Judge of said Court.

A true copy—attest: ALBERT D. PARK, Register.

6-24-31.
